

Rose Varieties

— Climbing —

This type of rose grows long, flexible stems that can be trained to grow vertically along supports like trellises or fences. These roses don't actually "climb" on their own like vines do.

Arborose® Florentina™ - Climbing, 7' h x 3' w

Color - Red

Scent - Moderate

Disease Resistance - High

Joseph's Coat - Climbing, 10–12' h

Color - Cherry-red, yellow, orange

Scent - Light

Disease Resistance - Moderate

— Floribunda —

Floribunda includes a wide variety of roses that are known for their large clusters of flowers. Many are bred to be more disease resistant. They tend to have a more bushy and compact growth.

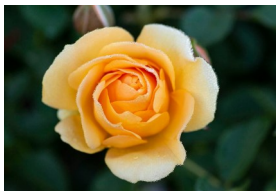

Desert Sky™ - Compact, Bushy, 2 1/2' h x 2 1/2' w

Color - Brick-orange to mauve

Scent - Very Slight

Disease Resistance - High
